

The color blue symbolizes harmony, sympathy, and communication. Attributes that the Souverān® M 800 represents with its fine, black-and-blue striped appearance. An elegant eye-catcher with an 18-karat, two-tone gold nib, which lives up to its name in the dark black-red and classic black-green color combinations, too.

A NIB'S WIDTH OF INSPIRATION.

It is a thought that drives us, the thought of stimulating the world of premium writing instruments with ideas that extend far outside the box. One of them is the fluid transition from writing to sketching. Transform personal impressions into inspiring visions of ink flowing from the nib – from the eye to the heart and onto paper. Nibs can do so much. What nib is the one that adores my handwriting?

In our diverse range, you can find the right nib width for anyone.

It is our pleasure to share with you detailed information about our fine pieces of gold, the core of every fountain pen. Interesting facts about our product versions and product data overviews add the finishing touch to this catalog, making it a "magnificent" tool for your successful sales pitch.

Welcome to Sketch and Write!

NIBWidths

DIFFERENCES AND COMMONALITIES

PELIKAN HAS A VARIETY OF NIB SIZES IN ITS RANGE.

WE ARE PRESENTING TO YOU DIFFERENCES AND COMMONALITIES

AS WELL AS A FEW EXAMPLES OF THEIR USAGE SO THAT EVERYONE

CAN FIND THE RIGHT NIB FOR THEM. WHETHER A FINE, MEDIUM,

OR EXTRA-BROAD NIB IS A GOOD MATCH FOR HANDS LARGE OR SMALL,

OR A NIB THAT INSPIRES THE MOST ENTHUSIASM, THESE ARE

QUESTIONS THAT COME DOWN TO DECADES OF EXPERIENCE AND

PERSONAL PREFERENCES. HANDWRITING STYLE AND MOVEMENT ARE

ALSO FACTORS THAT INFLUENCE THE IMAGE PRODUCED BY BALANCED

HANDWRITING. OUR NIBS ARE VERSATILE, JUST AS HANDWRITING IS.

WE RECOMMEND TRYING WRITING WITH THEM.

NIB EF - EXTRA-FINE

What is special about it?

The EF has an extra-fine stroke and is very well-suited to small, or even very small, handwriting. It should only be used with a light hand and gentle pressure. It consumes little ink.

What paper?

High-quality writing paper with a smooth surface is optimal. It is less suited to coated paper (for art and image printing) with an open surface, rough laid paper, or strongly structured paper as the extra-fine nib can get stuck on these paper types.

Example usage:

For pages with lots of text in a tight space, for example, diaries, calendars, small sketches, or intricate hatching or patterns.

Nice to know:

Despite its fineness, the EF nib still offers an even flow of ink and does not dry out quickly.

NIB F - FINE

What is special about it?

This nib has a fine stroke and moves across the paper with ease, requiring little pressure. The F is able to handle somewhat more pressure than the EF. It has a nice handwriting flow and is considered particularly reliable. A very suitable match for small handwriting.

What paper?

Smooth, high-quality paper. It also writes fantastically on normal or somewhat rougher copy paper. It is less suited to handmade floral wrapping paper, decoration paper, or letter paper as the ink bleeds into small streaks and runs across the paper.

Example usage:

Sketchbooks, letters, and notebooks with regular-sized or somewhat larger handwriting.

Nice to know:

Practice makes perfect – simply try out different paper variants.

NIB M - MEDIUM

What is special about it?

This nib is our talented jack of all trades. It is a suitable match for any handwriting, it writes in all directions, and it maintains the same stroke width. Pelikan fans swear by the exceptionally good flow of ink. It is a marker of quality that all Pelikan nibs share. The broader the nib, the greater the flow of ink.

What paper?

Many different, smooth, uncoated papers. Simply order some samples and try it out. The masterful result is always an interplay of the nib, ink, and paper.

Example usage:

Invitation cards, addresses, letters, and much more.

Nice to know:

Even after taking a break for a few months, the M still writes reliably and spontaneously.

NIB B - BROAD

What is special about it?

This nib delights anyone who has large, expansive handwriting. The stroke is significantly wider than that of the M nib, which means that the letters might mix up with each other when the handwriting is small. The B glides across the paper as if it was propelled by itself.

What paper?

There is a large selection to choose from. The rule remains the same:

Simply try them out. The coarser the paper, the greater the bleed.

On top of that, a highly absorbent paper results in more ink consumption.

Example usage:

Special occasions such as signing guest books or contracts or writing invitation cards.

Nice to know:

The B's broad surface contact creates striking written expression.

NIB BB - EXTRA BROAD

What is special about it?

The BB highlights the soft handwriting feeling that Pelikan fans know and appreciate from its little sister, the B nib.

This nib is characterized by its particularly wide stroke and nice flow of ink.

What paper?

Many different, smooth, uncoated papers are possible.

If the paper has large pores, a lot of ink will flow. This might have an effect on the desired result, so it is something to keep in mind.

Example usage:

Place cards, menus, short messages, letters with little text.

Nice to know:

The extra-broad BB has a particularly nice effect when the handwriting is large. It adds a little air of drama to it.

NIB IB - ITALIC

What is special about it?

The special IB Italic nib is a fascinating one, with a variable stroke width featuring narrow horizontal strokes and broad vertical strokes. It possesses a touch of calligraphy thanks to precisely this varying stroke. The stroke is thin and fine as it moves upward, and thick and wide as it moves downward. It glides across the paper softly and is also referred to as the "cursive" nib.

What paper?

High-quality artists' drawing paper with a higher grammage than normal copy paper.

Example usage:

Greeting cards, love letters, place cards, ornaments, decorations, invitations, day-to-day letters with a personal touch.

Nice to know:

Writing with the IB Italic demands a precise, steady hand and much practice.

URBAN Letchers

HANDWRITING WITH A NIB AND INK IS AN INDIVIDUAL EXPRESSION OF PERSONALITY; EVERY HANDWRITING IS UNIQUE. YET NIBS CAN DO SO MUCH MORE THAN JUST WRITING, AS THEY ARE ALSO A POPULAR TOOL FOR SKETCHING. HERE, WE SHARE AN INSIGHT INTO THE WORLD OF URBAN SKETCHERS, A GLOBAL COMMUNITY OF ARTISTS WHOSE WORK IS PRODUCED IN THE MIDDLE OF THE ACTION. STROKE BY STROKE, THEY GATHER IN COURSE GROUPS TO SKETCH NATURE, CITIES, OR INDIVIDUAL MOMENTS, LIKE A COFFEE HOUSE SCENE OR A PORTRAIT. FOUNTAIN PENS, WATERCOLOR BRUSHES, AND A WIDE VARIETY OF TOOLS ARE USED TO CREATE UNIQUE SKETCHES THAT THEY THEN SHARE WITH THE WORLD ONLINE IN A GLOBAL SKETCHBOOK: WWW.URBANSKETCHERS.ORG

The Urban Sketchers are messengers of the places they live in and visit, a global community in small groups that sketches the world. When sketching building facades and old town squares together, they learn exciting historical details from the course leaders and, as a result, gain a sharpened focus on the structures they sketch. The sketches are made directly in the moment, never from a reference photo or from memory. The process becomes an end point in itself, and the sketch turns into an unmistakable memory.

Anyone enthusiastic about sketching can join Urban Sketchers, whether at a beginner's or advanced level. The participants in the groups communicate with each other during the creation phase of their sketches. They learn from each other, for example, how a draft can be reduced in scale instead of getting lost in small details. They are not out to make the perfect sketch. Rather, it is about capturing and preserving a moment or experience with a light hand in a small space of time. All without any pressure. An inspiration for anyone who might not have trusted themselves to try it out.

The History of Urban Sketchers

In 2007, illustrator and journalist Gabriel Campanario started an online forum aimed at "all the sketchers out there" who love

sketching the cities they live in or travel to. The perspective was meant to be direct, which meant scenes out of a window in the house they live in, standing on a street corner, or sitting in a pedestrian zone. The main thing was to sketch a scene taking place on the ground. Remember, 2007 was a year when microblogs enabled access to global publications and social media was gaining relevance. One year later, in 2008, the Urban Sketchers blog was born. A group of invited artists exhibited their sketches and stories on this blog, which went on to become a foundation for the global artistic movement. Today, the Urban Sketchers community has more than 120,000 members in over 60 countries and roughly 400 cities. The founder, Gabriel Campanario, began with a vision of connecting people around the globe through art. He could never have expected just how many people his idea would turn into Urban Sketchers in just over one-and-a-half decades.

The Urban Sketchers story is about a meeting of the analog and the digital, of profession and hobby, of tools and stylized forms, and of meeting and sharing. Above all, though, it is a story that connects people all over the globe through art.

EVERYONE FINDS THEIR PATH, THEIR STYLE, AND THEIR FAVORITE NIB. YOU JUST NEED TO START!

Of moments ...

There is a manifesto to guide the worldwide community, and it says to sketch a direct observation of the scene on the ground — documenting the feeling of the

moment. The personal experience of the moment is captured using the sketcher's own hands and a variety of tools, helping turn it into a story. Each sketch is an artwork that reflects the artist's personal handwriting and individual style. Head out, sketch, show. That sums it up.

Of nibs ...

Sketching with a nib makes for a unique radiance and effect, especially as ink adds an exceptional depth to the sketches. The fine lines and the ability to produce different stroke widths make it possible to create detailed and expressive sketches. Yet which nib is the right one? Anyone wishing to try out sketching with a nib should sample a variety of nib widths and papers. Whether fine details and contours, or lines that are drawn on thick and flow into each other ... There is much that is possible and worth exploring. It all depends on the size of the hand, the amount of ink applied, the fluidity of the handwriting movement, and so on. You notice immediately upon testing when you have found the right nib and fountain pen model set for yourself. It all comes together like a perfect pair of jeans.

Of inspirations ...

There is not really any shortage of ideas as inspiration comes from everywhere. Whether traversing nature, sitting in a café, taking a long train trip, or waiting at the bus stop, each moment of sketching becomes a casual, creative time out, something which is often all too rare in day-to-day life. Slowing down is key here. Moreover, sketching is easy to do anywhere and without complications — all you need is a little bag with a fountain pen case and book or backpack and stool. A small set of watercolors, brushes, pencils, waterproof artists' fineliner pens, and a fountain pen with ink. That's it. Everyone finds their path, their style, and their favorite nib. You just need to start!

Pelikan 🕲

delstein INK

Garnet

Mandarin

Aventurine

Jade

Sapphire

Onyx

Tanzanite

OUR BRILLIANT INK COLLECTION ADDS A SPECIAL SHINE TO EVERY WRITTEN WORD. SIMULTANEOUSLY, THE UNIQUE FORMULA OF THE EDELSTEIN INK CARES FOR THE FOUNTAIN PEN FROM WITHIN.

For decades, Pelikan has stood for high-quality inks. With the development of Edelstein ink in 2012, we were able to start a completely new chapter in the world of inks. It was a milestone in our Pelikan history which maintains every bit of significance to this day. The exclusive Edelstein ink collection pays tribute to famous gemstones from across the world. In addition, it has some exceptional characteristics thanks to the brilliant formula. It delivers a noticeably smooth writing experience and is precisely tailored to the intricately crafted components of a Pelikan fountain pen. Even the bottle is designed like a cut diamond. The ink color variations and ink cartridges for on-the-go usage can be found starting on page 80.

The Pelikan QUALITY Promise

WE MAKE QUALITY AN EXPERIENCE

Quality amazes people. It involves craftsmanship that has developed from a wealth of experience and continues growing steadily. To meet the most sophisticated of demands at any time, whether for writing enthusiasts or fresh beginners, we refine our capabilities with the greatest passion. We show how it is possible to develop ideas and bring the joy of writing to paper. It is a philosophy that can be felt in every product: simple, pure amazement.

- Unlimited warranty on limited edition pens*. The special finish
 using the maki-e and raden techniques is excluded from this
 warranty as it entails an artistic handicraft that is unique for
 every pen.
- Three-year warranty on Premium and Classic collections*.
- Free change of nib for standard sizes within 4 weeks of purchase*.
- Spare part, repair, and engraving services.

^{*} More information can be found in the warranty booklet of the relevant writing instrument or on our website in 12 languages: pelikan-passion.com/int/service/warranty

Pelikan 🕲

LIMITED & SPECIAL EDITIONS The premium jet-black resin is married with details polished to a high sheen, making for an unmistakable design. These details – the famous beak-like clip and ornamentation - are plated with 24-karat gold. 16

Our extraordinary Special and Limited Editions represent fantasyfilled material designs and premium handwriting with classic elegance. We continually reinterpret exceptional materials, colors, and designs for our Special Editions. Each one is only available in limited numbers.

Our exclusive Limited Editions consist of unique, intricate pieces that we create only for extremely limited releases. These releases always have a thematic link to the edition. They come with a certificate and edition number. Our Maki-e icons incorporate millennia-old craftsmanship that has been passed down over generations in a long tradition to achieve perfection. It comes as no surprise that collectors worldwide are delighted with every new release of our Special and Limited Editions. It is a declaration of love to these rare beauties of ours which we develop with great passion and the utmost precision.

Deniun

PRESTIGIOUS PERFECTION

The search for the perfect symbiosis of classic elegance and sophisticated quality will lead you directly to our Premium collection. Fine nibs made of 14 or 18-karat gold crown each fountain pen. Gold and silver ornamentation ensure the unique Pelikan design is completely perfect. In these pens you can witness the combination of expertise and craftsmanship in one fascinatingly smooth writing experience – prestige for highly varied demands and preferences.

Whoever owns a Toledo writing instrument possesses a work of art and a small piece of history.

The art of Damascus patterns is thousands of years old. It comprises an elaborate method of applying ornamentation to steel or iron by impressing a thin gold film onto the surface. This sophisticated technology was brought to Spain by Arab settlers, where it was perfected over centuries, especially in the city of Toledo.

Pelikan commenced honoring this Damascus patterning technique for its model "Toledo" as early as 1931. This artwork is so highly coveted that it has continued to spread its magic for decades almost unchanged. Today, the decorative barrel is produced from a single piece of 925 sterling silver. Once the barrel has received multiple, special treatments, the motif is applied using a layer of gold. In the next step, the motif is etched on by hand, with the filigree detail giving the motif a life of its own.

Each Toledo writing instrument is a unique piece manufactured in Germany.

As a result of the taxing craftsmanship required, only a maximum of 50 instruments per month can be made. Every one of them is a great masterpiece in itself, and a small piece of history.

A WORLD-FAMOUS CLASSIC

The year 1950 is when our Model 400 was born. Even today, this classic with a black-and-green pinstripe sleeve is still considered a symbol of the Pelikan brand worldwide. It is our brand ambassador and our company's flagship product.

In the 1980s, the series was christened the Souverän®, marking the beginning of the standalone Souverän® brand. However, people often refer to it by its colloquial name "Stresemann" after the pinstriped suits worn by the German Foreign Minister of the same name in the 1920s. This nickname is still in use internationally and will likely remain so, too.

The fountain pen became established over time, taking many variations. Great caution is applied to the ongoing development of the design and technology, since the Souverän® has always been a simple, enduring companion that is appreciated just how it is. We are extremely proud of our stylish creation having aroused endless desire for four decades now. Of having achieved sovereign status.

In 1929, Pelikan was the first company in the world to patent a piston filling mechanism. This technology uses two different screw threads on the inside of the fountain pen to ensure that the spindle inside moves more quickly than the end piece of the barrel. As a result, it is very quick and easy to refill the pen.

MADE TO MEASURE BY THE MASTERS

The production of the Souverän® barrel is subject to an elaborate process. The typical, striped material is made out of cotton based on a formula developed specially for Pelikan. It takes months until the block providing the stripes is finished, whereupon the tailor-made plating is curved and cut into a contour using a natural diamond. The characteristic double rings are then integrated into the cap and barrel with the utmost precision, making sure that the transition between the materials is almost seamless. The writing instrument is polished until it reaches a brilliant luster.

The famous beak-like clip and Pelikan cap are placed on top, forming the crown of the Souverän®. Writing instruments of various sizes are created to ensure a product completely individual and suitable for your personal preferences.

individual appearance.

SOUVERAN®
WHITE COLLECTION

SOUVERÄN® WHITE COLLECTION

Our cheery Souverän® color variations have an air of elegant lightness, which is portrayed very well by these two Special Editions from our White Collection. The Souverän® 405 Silver-White is a jewelry-like product in Pelikan's range which stands out for its stylish purism. The bright, silver sheen underscores this elegant interpretation of our Souverän® classic.

The Souverän® 400 Tortoiseshell-White, has enraptured Pelikan fans and lit up the market since 2004, and together these models offer another perfect alternative to our sought-after series in black.

The light-toned shaft of this timelessly beautiful series is manufactured from cellulose acetate through an intensive process. This exceptional material corresponds harmoniously with the luxurious stripes so that whether silver or tortoiseshell, the design is simply unique. The cap and the other parts of the casing give the model its characteristic white radiance.

DELIGHTED SPIRIT

You can acquire the Souverän® 405 Silver-White as a piston fountain pen or as a retractable ballpoint pen.

The Souverän® 400 Tortoiseshell-White is available as a piston fountain pen, retractable ballpoint pen, mechanical pencil, or rollerball pen.

A KEY PERSONALITY

Germany's foreign minister during the 1920s, Gustav Stresemann (born 1878, died 1929), received the 1926 Nobel Peace Prize together with Aristide Briand for his Franco-German reconciliation work. On top of his outstanding political career, Stresemann was also known for a particular suit design, a suit that was ideal for official appearances, yet that could also be worn casually in the office.

Stresemann frequently wore this suit, made of a refined, pinstriped fabric, which in the end became legendary. At the same time, Pelikan and its pinstriped fountain pens were beginning to take the world by storm and people came to refer to the latter as "Stresemann" too, consequently gaining a personality of their own. Back then, we offered our Souverän® classics mostly in a black/green-striped design.

Today, both the suit as well as these fountain pens bear Stresemann's name. To pay proper tribute to this legend, Pelikan has now officially christened the latest addition to its collection, the Souverän® with stylish anthracite pinstripes, the "Stresemann."

Edelstein Ink Jade page 79

The writing instruments are delivered inside the attractive gift box G30.

It piques people's interest in handwriting and provides inspiration for strong verbal flourishes: The Elegance collection is the perfect entry to the world of fine writing instruments. The beak clip and subtle decorative rings are quintessentially and unmistakably Pelikan; they are the core of the timeless, classic design and a clear statement of the Pelikan brand. Every word written is given a particular flourish thanks to the precision-manufactured stainless-steel nib. For passionate collectors who are young or young at heart, the annual special edition is a major highlight. These people love color.

The M 200 Black-Gold charms with its sheer elegance.

CLASSIC EYE-CATCHER

The Classic series offers joyous and surprising colors, from classic jet black to light pastel green combined with white, or even multiple marbled colors. Moreover, an exceptional series of writing instruments is created each year to match the individual Edelstein Ink of the Year. The set consisting of this fountain pen and the matching Edelstein ink is always certain to captivate Pelikan fans each time.

Pelikan enjoys worldwide renown for its fountain pens. In response to the demand of many customers, we have additionally fitted our Classic 200 series with the practical cartridge filling system. The quick change of cartridge is particularly handy when on the go or traveling. Market needs are always changing, and so are we.

TWO FILLING SYSTEMS

Our Classic Series 200 comes featuring two filling systems: The piston filling mechanism and, as an alternative to this, the cartridge filling system. The classic piston mechanism allows you to fill the pen directly from an ink bottle and can be called Pelikan's typical fountain pen mechanism for high-quality writing instruments.

We also offer a fantastic product variant for fans of cartridge filling systems. You can refill your fountain pen or change its writing color by swapping the cartridge. The swap can be done quickly: Simply unscrew your writing instrument behind the grip and change the cartridge.

As a result, you can celebrate the pleasure of writing imaginatively using both filling systems.

THE CLASSIC CARTRIDGE FOUNTAIN PEN

For all fountain pen lovers, we offer the Classic Series with two filling systems: the M 200 and the M 205 comes with the differentiated piston mechanism, the P 200 and the P 205 with a cartridge filling system. The Classic Series 200, just like the M 200 and the P 200, comes with gold-plated ornamentation. The stainless steel nib is gold-plated as well. In addition, we offer the fountain pen M 205 and P 205 with silver ornamentation and a high-polished stainless steel nib. All series are available in nib widths EF, F, M, and B.

The cartridge fountain pen is available in a silver-colored, highly polished version under the number P 205.

RELAUNCH IN NEON YELLOW

Our Classic 205 DUO Highlighter NEON, with fluorescent ink, now gleams brighter than all others.

Acting as a fountain pen as well as a highlighter pen, it perfects two core functions simultaneously and dazzles anyone, neon fan or not. The matching ink was specially developed for this writing instrument and is customized for the technical components.

An impressive combination!

The M 205 DUO Highlighter NEON fountain pen is available exclusively as a set with a bottle of neon-yellow highlighter ink.

A WORLD OF PRESTIGE

The selection of original Pelikan accessories is multiplex. They are that extra something that tops off our range. A soft leather pouch, for example, provides optimal protection for your writing instrument. Our first-class ink has such brilliant pigments that it will make your handwriting radiate, whether you use our classic 4001® or our Edelstein ink with a particularly smooth writing quality. All of our accessories exist in beautiful harmony with each other.

Our Edelstein ink collection is also a visual attraction. The exceptional design of the flacon has already become a collector's item.

A BRILLIANT INK COLLECTION

For decades, Pelikan has stood for high-quality, prestigious inks and Ink 4001® has been part of the Pelikan DNA since the company was founded. We have created new highlights in the world of ink with our exclusive Edelstein Ink Collection.

The Edelstein ink consists of nine brilliant colors corresponding to famous precious stones from around the world. Due to the unique formula, the ink enables a particularly smooth writing experience while simultaneously caring for your pen

from within. The prestigious bottle's design is reminiscent of a cut diamond, which gives the entire collection an extremely elegant touch.

All Edelstein Inks are unique in their shades in the Pelikan ink range.

GOOD TO

simply beautiful.

Six of the Edelstein ink colors are also available in our regular range as ink cartridges with an elegant metal case. Ideal for combining with the Classic P 200 and P 205.

GENUINE RENOWN

Our 4001° inks are part of a number of our products that have proven themselves over many decades. First mentioned in a document from 1897, they are still a highly important product for any friend of the Pelikan brand today. Thanks to the formula which has been perfected down to the finest detail, the proven quality of the 4001° inks is consistently assured. They guarantee an even flow of ink, powerful written expression, and vibrant color. A true jack of all trades.

The shape of the 4001® ink bottle makes it easy to refill your fountain pen at any time: Should the ink be nearing its end, you can absorb the last drops left by turning the bottle on its side.

The legendary 4001® is a classic among inks. It enjoys renown all across the world.

HIGH LIGHTFASTNESS

4001® Blue black

Our 4001 ink in a blue/black tone can be categorized as relatively lightfast. It is an iron gall ink, which means that it is far more permanent than, for example, the 4001 in Royal Blue or Brilliant Black.

Thanks to the special ingredients in the formula, it can be used in both piston and cartridge fountain pens. Over time, the color of the ink changes from blue/black to gray, though the ink will always remain visible.

During development we made sure that the concentration of iron gall is low enough to avoid corrosion. Consequently, the ink does not decompose the paper used.

The flow of ink and width of the nib determine the thickness of the stroke made on the paper. The absorbing capacity of the paper also determines how much ink can be applied. One factor that also plays a very decisive role is the amount of time that the ink has been exposed to the light for.

This ink is not document proofed. We recommend "Fount India" to all customers seeking an ink that is even more permanent than our 4001.

4001 | Blue black

Fount India®

This ink is opaque and lightfast, forming part of our document-proof category of inks. Fount India can be used in piston fountain pens or, with a converter, in cartridge pens too. Carbon pigment is a component of the Fount India formula. As a result, this ink possesses almost the same level of lightfastness as our Scribtol ink.

What is important, however, is that the ink does not dry out or dry up completely in your fountain pen. To avoid this happening, you should regularly rinse out your pen with cold water. pelikan-passion.com/fount-india

DOCUMENT-PROOF AND NONFADING

Scribtol

The most durable ink in our range is Scribtol. It provides good coverage and is lightfast as well as being non-fade, so that this ink can be categorized as document-proof. Due to its composition, which allows it to achieve such a high level of permanence, it is unsuitable for fountain pens. We mainly recommend Scribtol for use with dip or nib pens.

Ballpoint refills

Our ballpoint refills in blue, black, and red colors satisfy all the criteria imposed on document-proof inks. These criteria include: smudge resistance, erasability, lightfastness, and water resistance. The special ballpoint paste is fast-drying, cannot be modified, and cannot be removed without leaving a trace. The ink also remains legible after a defined period of exposure to sunlight, which means that it cannot fade beyond a certain degree. If the ink comes into contact with water and runs, the lines of the writing still remain visible. The paste for ballpoint refills 337 and 38 is document-proof under ISO 12757-2.

OPTIMALLY EQUIPPED

In order for you to enjoy decades of writing pleasure with your writing instrument, you should protect it the best way possible. Our Pelikan cases for writing instruments are the ideal choice for this and brilliantly safeguard your Pelikan investment. Modern or classic? Patent or smooth leather? It is your choice.

Our classic leather cases in black or black/green are the perfect accessories for all situations. You can safely store one, two, or three writing instruments in them. They are an elegant accessory and come in two versions: in top-grain leather or as smooth nappa leather. Soft as silk and with a black lining.

The colorful, patent leather cases with high-quality zipper are the cherry on top when it comes to modern accessories. They are available as a case for two and make a vibrant statement in three attractive colors.

AN ELEGANT STORAGE SOLUTION

Once bitten by the collector's spirit, it is very difficult to stop — and that is something any collector will confirm. Soon, however, there comes a point where a solution must be found to store all the acquired treasures. Pelikan has for this reason created a collector's chest that satisfies every need while being stunning to look at and convenient to use.

The collector's chest provides space for 24 writing instruments, with even the large Souverän® M 1000 fitting inside perfectly. The frame is made of durable MDF finished with a high-quality wooden veneer and a protective, transparent varnish. To avoid scratching the writing instruments stored inside, the pen holder inserts are covered in artificial leather in a cream color.

There is a transparent panel made of safety glass that allows for an admiring gaze at the collection at any time. The plastic feet ensure that the chest can also be placed on more sensitive surfaces. The Pelikan logo can be found on the front as well as on the back.

THE PASSION IS ALL AROUND

The right gift packaging completes the customer's purchase decision. Whether as a gift for yourself or for a loved one – the new writing instrument is impressively packaged in high-quality packaging.

Every writing instrument in the Premium and Classic series is supplied in the elegant G30 gift box. Within this gift box the writing instrument is also securely wrapped in a cream-colored case for transport. The enclosed guarantee declaration is signed by the retailer after purchase with stamp and his or her signature.

For a final satisfied consumer experience "to go", the Pelikan gift bag in the high-quality champagne color is just the right choice.

Pelikan GLOSSARY

THIS GLOSSARY IS YOUR SOURCE OF INFORMATION FOR PELIKAN-SPECIFIC TOPICS. THE MOST IMPORTANT TERMS CONNECTED TO SERVICE, THE BRAND, AND PRODUCT KNOWLEDGE ARE LISTED HERE. THEY ARE ESSENTIAL FOR TRAINING NEW EMPLOYEES AND ALSO SERVE AS A SOURCE OF INSPIRATION FOR CONVERSATION WITH CUSTOMERS. WHAT'S MORE, EACH TOPIC INCLUDES A SPECIAL SELLING POINT THAT CAN BE USED IN SALES PITCHES. WITH ALL OF THIS, YOU ARE GIVEN A GREAT, SUMMARIZED BASIS FOR YOUR PELIKAN EXPERTISE AND HAVE THE BEST INFORMATION AT ALL TIMES.

PELIKAN Passion Service

- Pelikan offers special services for fine writing instruments:
 from repairs to engravings as well as nib changes or cleaning of the writing instrument.
- Visit our website:

www.pelikan-passion.com/int/services/repair-service

Selling point: Pelikan's fine writing instruments can be used for a long time as a result.

HANDMADE in Germany

 These fine writing instruments are produced and assembled by hand at our factory in Vöhrum, Germany.

Selling point: 100% made in Germany and 100% quality control.

PELIKAN PASSION

Customer magazine for handwriting culture

- Our magazine conveys the fascination people have for handwriting,
 elegant writing instruments, and exceptional materials and manufacturing techniques.
- An interesting mix of art, culture, products, and lifestyle.
- Available in retail worldwide through your point of contact at Pelikan.

Selling point: Passion brings to life the passion that people have for the brand and elegant handwriting. All in one magazine.

PELIKAN HUB

International network event for Pelikan fans

- Once per year, Pelikan fans meet to share their passion for Pelikan writing instruments and their love of handwriting.
- These Hubs take place simultaneously in roughly 50 countries globally, with over 6,000 attendees and growing.

Selling point: Perfect to meet and share the same passion for fine writing.

variety of WRITING INSTRUMENT SIZES

Pelikan's product range contains different writing instrument sizes for every type of hand:
 Elegance Classic series = 200

Premium: Souverän series = 400, 600, 800, 1000

Selling point: We offer different writing instrument sizes for an individual writing experience.

gleaming

• The elegant, quintessentially Pelikan outer edge of each fine writing instrument is cut into shape using a diamond.

Selling point: The diamond-cut surfaces are the product of a prestigious finishing process.

It gives the writing instruments their elegant contours.

high-grade RESIN

 All single-colored writing instrument components (jet black, pure white) are made from a single high-quality, self-polishing plastic.

Selling point: Some plastics lose their sheen when they are touched. This high-quality plastic is self-polishing so any usage makes it shine even more.

meaning-filled BEAK CLIP

- The perfectly shaped clip on Pelikan's fine writing instruments is modeled on the beak of the bird it is named after.
- It is an unmistakable sign of the Pelikan brand.

Selling point: This elegant and quintessential recognition feature tells the story behind the brand.

Piston FILLING MECHANISM

A patented method

• The nib is dipped into the ink bottle. When you turn the filler knob, the ink is drawn into the reservoir using the negative pressure. The two different screw threads cause the spindle inside to move more quickly than the filler knob.

Selling point: Pelikan was the world's first company to introduce this technology in 1929 and offers high quality thanks to its many years of experience.

EDELSTEIN INK Collection

- We have developed an innovative formula for this exclusive Edelstein Ink.
- The ink collection is characterized by extraordinary colors, a silky smooth writing experience, and an elegantly shaped bottle reminiscent of a cut diamond.
- Annual highlight: Edelstein Ink of the Year. Limited editions that are named after specific gemstones.

Selling point: An ink formula with high-quality color pigments and an additive

for particularly soft handwriting. The nib glides gently across the paper.

Edelstein Ink of the Year – a special color each year available for 12 months only.

4001® INK – our classic

- Ink 4001® is part of the Pelikan DNA: Pelikan's first product was this ink.
- Our legendary 4001® is a true international star.
- It is characterized by its many brilliant colors, consistently high quality, and even flow of ink.
- The color "Royal Blue" is erasable.

Selling point: The use of high-quality pigments ensures that writing looks brilliant.

NIB WIDTHS fine to broad

only the nibs within the respective writing instrument size (400, 600, 800, 1000) are interchangeable.

- Pelikan has various nib widths in its range, from fine to medium and extra-broad.
- Nibs can be exchanged free of charge within the first 4 weeks after purchase.
- Exchanges require that the nib is in faultless condition and does not have any signs of use beyond a sampling of the nib.

Selling point: Nib widths can be exchanged within

4 weeks of purchase.

fine GOLD NIBS – SMOOTH writing experience

- There are two types of nib: 14-karat or 18-karat. The number of karats indicates the proportion of pure gold in the total mass of a gold alloy. The higher the number, the purer the gold.
- Quintessentially Pelikan two-tone gold nibs: silver and yellow gold. The nib is finished
 with a rhodium plating, which means that a thin layer of rhodium (a platinum material)
 is applied to it. The areas that were covered up beforehand maintain their yellow-gold
 appearance.

Selling point: Gold nibs are soft and flexible, enabling a smooth writing experience. Iridium grit is used to shape the nib's width

high-quality STAINLESS-STEEL NIBS

for the classic series

- The nibs for the Classic series are made of stainless steel.
- The silver nibs have a high-sheen polish while the gold nibs are gold-plated.

Selling point: A good entry to the world of fine writing instruments to get a feeling of handwriting with a fountain pen
